FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Committee will review Framework 28 (FW28) alternatives and analyses. The Committee will review any concepts or recommendations that come out of the joint Scallop PDT/AP meeting being held on October 13, 2016. The primary focus of this meeting will be to provide input on the range of specification alternatives. FW28 will set specifications including ABC/ACLs, DAS, access area allocations for LA and LAGC, hard-TAC for NGOM management area, target-TAC for LAGC incidental catch and set-asides for the observer and research programs for fishing year 2017 and default specifications for fishing year 2018. Management measures in FW28 include: (1) measures to restrict the possession of shell stock inshore of 42° 20' N; (2) measures to apply spatial management to fishery specifications (ACL flowchart); (3) measures to modify the Closed Area I access area boundary, consistent with potential changes to habitat and groundfish mortality closed areas. The Committee may discuss scallop related issues under consideration in groundfish Framework 56. Other business will be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
